

Kayla Breeden

Kayla Breeden is a Shoreline alumna who began dancing with us in 2005! Since graduating in 2015, she earned her BA/MA in Psychology from Montclair State University and MS in Clinical Mental Health Counseling from Monmouth University. While at MSU, she continued her training by taking elective dance courses, and performing and choreographing with Montclair State Dance Company. Although she has the pleasure of integrating movement and expression into her work as a Therapist, Kayla is excited for her new role in the community that helped shape her!
