

Mariah Ross

Mariah has been a part of the Shoreline family since the first year it opened in 2004. After graduation in 2015, Mariah earned a Bachelor's Degree in Biology from West Chester University of Pennsylvania and has started a career in Bioscience studies. At an early age, she demonstrated a love of dance, especially tap, and that love grew so much that she HAD to come and share that love with the next generation. She is honored to now be a part of the team that has helped shape her into the dancer and the woman she is now.
